

## **EPCOR Utilities Inc.**

### **Interim Management's Discussion and Analysis**

#### **June 30, 2015**

---

This management's discussion and analysis (MD&A) dated August 5, 2015, should be read in conjunction with the condensed consolidated interim financial statements of EPCOR Utilities Inc. for the three months and six months ended June 30, 2015, including significant accounting policies adopted (note 3) and financial instruments (note 7), the consolidated financial statements and MD&A for the year ended December 31, 2014, including standards and interpretations not yet applied (note 3(x)), related party transactions (note 28) and financial instruments (note 29), and the cautionary statement regarding forward-looking information at the end of this MD&A. In this MD&A, any reference to "the Company", "EPCOR", "it", "its", "we", "our" or "us", except where otherwise noted or the context otherwise indicates, means EPCOR Utilities Inc., together with its subsidiaries and joint arrangements. In this MD&A, Capital Power refers to Capital Power Corporation and its directly and indirectly owned subsidiaries including Capital Power L.P., except where otherwise noted or the context otherwise indicates. Financial information in this MD&A is based on the June 30, 2015, condensed consolidated interim financial statements, which were prepared in accordance with International Financial Reporting Standards (IFRS), and is presented in Canadian dollars unless otherwise specified. In accordance with its terms of reference, the Audit Committee of the Company's Board of Directors reviews the contents of the MD&A and recommends its approval by the Board of Directors. This MD&A was approved and authorized for issue by the Board of Directors on August 5, 2015.

#### **OVERVIEW**

EPCOR is wholly-owned by The City of Edmonton (the City). EPCOR builds, owns and operates electrical transmission and distribution networks in Canada as well as water and wastewater treatment facilities and infrastructure in Canada and the United States (U.S.). EPCOR also provides electricity and water services as well as products to residential and commercial customers. EPCOR's electricity (collectively the Distribution and Transmission and Energy Services segments) and water (including wastewater treatment) businesses consist primarily of rate-regulated and long-term commercial contracted operations.

EPCOR's net income was \$139 million and \$208 million for the three and six months ended June 30, 2015, respectively, compared with net income of \$55 million and \$93 million for the comparative periods in 2014, respectively. The increase of \$84 million and \$115 million was in part due to gain on sale of a portion of investment in Capital Power and gain on reclassification of investment in Capital Power as an available-for-sale asset. Also contributing to the increase in net income was higher favorable fair value adjustments related to financial electricity purchase contracts, higher approved water and electricity customer rates, and lower tax expense due to the re-organization of Energy Services in 2014.

EPCOR's core operations performed well in the second quarter without any significant issues or disruptions to customers. Net income from core operations was \$87 million and \$142 million, respectively, for the three and six months ended June 30, 2015, compared with \$53 million and \$82 million, for the respective comparative periods in 2014, as described in the net income table on page 3. The increase in income from core operations, as mentioned above, was driven in part by higher favorable fair value adjustments related to financial electricity purchase contracts and improved rates. Income from core operations is a non-IFRS financial measure as described in Net Income on page 2 of this MD&A.

In April 2015, David Stevens, EPCOR President & CEO, announced he would be retiring from EPCOR. Mr. Stevens will remain in his position until September 1, 2015. The Board of Directors has initiated the recruitment process for his replacement.

In April 2015, EPCOR exchanged 9,450,000 limited partnership units for an equal number of common shares of Capital Power which were immediately sold at an offering price of \$23.85 per share for aggregate gross proceeds of \$225 million. As a result of this transaction, the Company recognized a net gain before income tax of \$21 million in net income, including \$9 million on items previously recognized in other comprehensive income. In addition, EPCOR exchanged all of its remaining 9,391,000 exchangeable limited partnership units for common shares of Capital Power. Following the completion of the offering, EPCOR directly owns 9% of Capital Power and as a result, the Company lost significant influence over Capital Power. Accordingly, the Company has reclassified its remaining investment in Capital Power as an available-for-sale asset. On initial recognition of investment in Capital Power as an available-for-sale asset, the Company recognized a net gain before income tax of \$32 million in net income including \$9 million on items previously recognized in other comprehensive income.

In February of 2015, Suncor gave the Company notice that it will exercise its contractual rights to buy back the leased assets and terminate the related financing and operating agreements. The transfer of assets and operations back to Suncor is to take place over an 18-month period unless the parties agree otherwise. This is not expected to have a material impact on the Company or its operations.

## CONSOLIDATED RESULTS OF OPERATIONS

### Revenues

	Three months	Six months
<b>Revenues for the periods ended June 30, 2014</b>	<b>\$ 435</b>	<b>\$ 899</b>
Higher Water Services segment revenues	41	68
Higher electricity Distribution and Transmission segment revenues	17	31
Lower Energy Services segment revenues	(3)	(32)
Other	(1)	(4)
Increase in revenues from core operations	54	63
<b>Revenues for the periods ended June 30, 2015</b>	<b>\$ 489</b>	<b>\$ 962</b>

Consolidated revenues were higher by \$54 million and \$63 million for the three and six months ended June 30, 2015, respectively, compared with the corresponding periods in 2014 primarily due to the net impact of the following:

- Water Services segment revenues were higher for the three and six months ended June 30, 2015, compared with the corresponding periods in 2014 primarily due to higher construction revenues, approved customer rates and volumes, commercial revenues, and foreign exchange translation gains.
- Electricity Distribution and Transmission segment revenues were higher for the three and six months ended June 30, 2015, compared with the corresponding periods in 2014 primarily due to higher approved electricity rates.
- Energy Services segment revenues were lower for the three and six months ended June 30, 2015, compared with the corresponding periods in 2014 primarily due to lower electricity prices and volumes.

### Net Income

We use income from core operations to distinguish operating results from the Company's water and electricity businesses from results with respect to its investment in Capital Power. It is a non-IFRS financial measure, which does not have any standardized meaning prescribed by IFRS and is unlikely to be comparable to similar measures published by other entities. However, it is presented since it provides a useful measure of the Company's core operations and it is referred to by debt holders and other interested parties in evaluating the Company's financial position and in assessing its creditworthiness.

(Unaudited, \$ millions)	Three months	Six months
<b>Net income for the period ended June 30, 2014</b>	<b>\$ 55</b>	<b>\$ 93</b>
2014 equity share of income from Capital Power (net of income tax)	(2)	(11)
<b>2014 income from core operations</b>	<b>53</b>	<b>82</b>
Higher Water Services segment operating income	12	14
Higher electricity Distribution and Transmission segment operating income	-	12
Higher Energy Services segment operating income	22	33
Lower (higher) net financing expense	4	(1)
Other	(4)	2
Increase in income from core operations	34	60
<b>2015 income from core operations</b>	<b>87</b>	<b>142</b>
2015 equity share of income from Capital Power (net of income tax recovery)	-	14
2015 dividend income from available-for-sale investment in Capital Power	3	3
2015 gain on sale of a portion of investment in Capital Power (net of income tax)	19	19
2015 gain on reclassification of investment in Capital Power as available-for-sale investment (net of income tax)	30	30
<b>Net income for the period ended June 30, 2015</b>	<b>\$ 139</b>	<b>\$ 208</b>

Net income was higher for the three and six months ended June 30, 2015, compared with the corresponding periods in 2014 primarily due to the following:

- Changes in each business segment's operating results for the three and six months ended June 30, 2015, compared with the corresponding periods in 2014 as described under Segment Results below.
- Net financing expense was lower for the three months ended June 30, 2015, compared with the corresponding period in 2014 primarily due to a favorable fair value adjustments related to interest rate swaps.
- Net financing expense was higher for the six months ended June 30, 2015, compared with the corresponding period in 2014 primarily due to a higher unfavorable fair value adjustments related to interest rate swaps.
- EPCOR's equity share of income of Capital Power was lower for the three months ended June 30, 2015, compared with the corresponding period in 2014. This was primarily due to the change from equity accounting to fair value accounting for the investment in Capital Power as a result of the loss of significant influence. The sell-down of Capital Power in April 2015, as mentioned above, reduced EPCOR's ability to exert significant influence over Capital Power and resulted in the reclassification of the Company's investment in Capital Power as an available-for-sale asset.
- EPCOR's equity share of income of Capital Power was higher for the six months ended June 30, 2015, compared with the corresponding period in 2014. This was primarily due to an income tax recovery in 2015 compared to income tax expenses in 2014.
- EPCOR's dividend income from the available-for-sale asset in Capital Power was higher for the three and six months ended June 30, 2015, compared with the corresponding periods in 2014. This was due to accounting for the investment in Capital Power as an available-for-sale asset as described above.
- EPCOR recognized a gain on sale of a portion of its investment in Capital Power with no corresponding transaction in 2014. A gain on sale resulted from proceeds received less direct expenses that were higher than the carrying amount of the portion of the Company's investment in Capital Power sold. Items initially recognized in other comprehensive income which were reclassified to net income also contributed to the gain.

- EPCOR recognized a net gain on the initial recognition of the investment in Capital Power as an available-for-sale asset with no corresponding transaction in 2014. Items initially recognized in other comprehensive income which were reclassified to net income also contributed to the gain.

## SEGMENT RESULTS

### Water Services

(Unaudited, \$ millions, including intersegment transactions)	Three months ended		Six months ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Revenues	\$ 180	\$ 139	\$ 327	\$ 259
Expenses	(127)	(98)	(243)	(189)
<b>Operating income</b>	<b>\$ 53</b>	<b>\$ 41</b>	<b>\$ 84</b>	<b>\$ 70</b>

Water Services' operating income increased by \$12 million and \$14 million for the three and six months ended June 30, 2015, respectively, compared with the corresponding periods in 2014 primarily due to higher approved customer rates, increased volumes, higher commercial and construction activity and a Suncor termination fee.

### Distribution and Transmission

(Unaudited, \$ millions, including intersegment transactions)	Three months ended		Six months ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Revenues	\$ 142	\$ 125	\$ 285	\$ 254
Expenses	(127)	(110)	(240)	(221)
<b>Operating income</b>	<b>\$ 15</b>	<b>\$ 15</b>	<b>\$ 45</b>	<b>\$ 33</b>

Distribution and Transmission's operating income did not change for the three months ended June 30, 2015, compared with the corresponding period in 2014 due to higher net system access collections and distribution access rates offset by higher electricity delivery service charges, depreciation and staff costs.

Distribution and Transmission's operating income increased by \$12 million for the six months ended June 30, 2015, due to higher net system access collections and distribution access rates. This was partially offset by higher electricity delivery service charges, depreciation and staff costs.

### Energy Services

(Unaudited, \$ millions, including intersegment transactions)	Three months ended		Six months ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Revenues	\$ 203	\$ 206	\$ 431	\$ 463
Expenses	(160)	(185)	(368)	(433)
<b>Operating income</b>	<b>\$ 43</b>	<b>\$ 21</b>	<b>\$ 63</b>	<b>\$ 30</b>

Energy Services' operating income increased by \$22 million and \$33 million for the three and six months ended June 30, 2015, respectively, compared with the corresponding periods in 2014 primarily due to higher favorable fair value adjustments related to financial electricity purchase contracts. This was partially offset by lower Energy Price Setting Plan margins.

In March 2014, EPCOR completed its re-organization of Energy Services. The services formerly offered directly by EPCOR Energy Alberta Inc. are now provided by EPCOR Energy Alberta Limited Partnership, through its general partner EPCOR Energy Alberta GP Inc.

## Capital Spending and Investment

(Unaudited, \$ millions)		
Six months ended June 30,	2015	2014
Water Services	\$ 84	\$ 66
Distribution and Transmission	103	84
Energy Services	-	2
Corporate	4	2
<b>Total capital spending and investment</b>	<b>\$ 191</b>	<b>\$ 154</b>

Total capital spending and investment was higher for the six months ended June 30, 2015, compared with the corresponding period in 2014 primarily due to increased spending in the Distribution and Transmission segment on lifecycle replacement, growth and performance improvement projects. This was accompanied by increased construction activity in the Water Services segment at the Gold Bar wastewater treatment plant, new reservoirs at the Walker and Big Lake booster stations in Edmonton, and on the White Rock Total Water Quality Management project. This was partially offset by decreased construction activity in the Distribution and Transmission segment due to the Heartland Transmission Project being completed in 2014.

## CONSOLIDATED STATEMENTS OF FINANCIAL POSITION - ASSETS

(Unaudited, \$ millions)	June 30, 2015	December 31, 2014	Increase (decrease)	Explanation of material changes
Cash and cash equivalents	\$ 157	\$ 37	\$ 120	Refer to Consolidated Statements of Cash Flows section.
Trade and other receivables	506	333	173	Increase primarily due to an increase in current portion of finance lease receivables due from Suncor and other financial assets (see below) and higher customer water rates and volumes, partially offset by lower electricity accruals and billings resulting from lower electricity volumes.
Inventories	13	14	(1)	
Finance lease receivables	91	118	(27)	Decrease primarily due to re-classifying non-current lease receivables to current (recorded in trade and other receivables above) resulting from the Suncor buy-back decision.
Other financial assets	281	408	(127)	Decrease primarily due to portions of Capital Power and Regina long-term receivables becoming current and reclassified to trade and other receivables above, partially offset by higher construction revenue recognized.
Deferred tax assets	70	69	1	
Investment in Capital Power	-	393	(393)	Decrease primarily due to ceasing equity accounting and re-classifying the investment in Capital Power to an available-for-sale asset (recorded in available-for-sale investment below).
Available-for-sale investment in Capital Power	202	-	202	Increase primarily due to ceasing equity accounting and re-classifying the investment in Capital Power to available-for-sale investment (see above).
Property, plant and equipment	4,301	4,112	189	Increase primarily due to capital expenditures and foreign currency valuation adjustments, partially offset by depreciation expense.
Intangible assets and goodwill	270	254	16	Increase primarily due to capital expenditures and foreign currency valuation adjustments, partially offset by amortization expense on assets with finite lives.

## CONSOLIDATED STATEMENTS OF FINANCIAL POSITION – LIABILITIES AND EQUITY

(Unaudited, \$ millions)	June 30, 2015	December 31, 2014	Increase (decrease)	Explanation of material changes
Trade and other payables	316	248	68	Increase primarily due to higher electricity purchase accruals as a result of higher wholesale electricity prices and due to Regina construction.
Loans and borrowings (including current portion)	1,993	2,080	(87)	Decrease due to repayment of short-term debt, partially offset by foreign currency valuation adjustments on U.S. debt.
Deferred revenue (including current portion)	912	870	42	Increase primarily due to contributed assets received and favorable foreign currency valuation adjustments, partially offset by revenue recognized.
Provisions (including current portion)	124	135	(11)	Decrease primarily due to contributions from developers, partially offset by lower employee benefit obligations.
Derivative liabilities (including current portion)	10	9	1	
Other liabilities (including current portion)	36	37	(1)	
Deferred tax liabilities	24	19	5	Increase due to taxable temporary differences.
Equity attributable to the Owner of the Company	2,476	2,340	136	Increase due to increase in net income, partially offset by dividends paid.

## CONSOLIDATED STATEMENTS OF CASH FLOWS

(Unaudited, \$ millions)

### Cash inflows (outflows)

Three months ended June 30,	2015	2014	Increase (decrease)	Explanation
Operating	\$ 170	\$ 82	\$ 88	Increase primarily reflects higher funds from operations and higher non-cash operating working capital primarily resulting from a larger increase in accounts payables, partially offset by larger increase in trade and other receivables.
Investing	95	(63)	158	Increase primarily due to proceeds on sale of portion of the investment in Capital Power, partially offset by higher capital expenditure and higher advances on financial lease receivables and other assets.
Financing	(148)	(44)	(104)	Decrease primarily due to repayment of short-term loans and borrowings, partially offset by lower repayment of long-term loans and borrowings.
Opening cash and cash equivalents	40	126	(86)	
Closing cash and cash equivalents	\$ 157	\$ 101	\$ 56	

(Unaudited, \$ millions)

**Cash inflows (outflows)**

<b>Six months ended June 30,</b>	<b>2015</b>	<b>2014</b>	<b>Increase (decrease)</b>	<b>Explanation</b>
Operating	\$ 283	\$ 182	\$ 101	Increase primarily reflects higher funds from operations and higher non-cash operating working capital primarily resulting from larger increase in accounts payables, partially offset by larger increase in trade and other receivables.
Investing	15	(131)	146	Increase primarily due to proceeds on sale of portion of the investment in Capital Power, higher non-cash investing working capital and lower payments for Gold Bar transfer fees, partially offset by higher advances on financial lease receivables and other assets and higher capital expenditure.
Financing	(178)	(80)	(98)	Decrease primarily due to repayment of short-term loans and borrowings, partially offset by lower repayment of long-term loans and borrowings.
Opening cash and cash equivalents	37	130	(93)	
Closing cash and cash equivalents	\$ 157	\$ 101	\$ 56	

**LIQUIDITY AND CAPITAL RESOURCES**

The Company maintains its financial position through rate-regulated utility and contracted operations which generate stable cash flows.

**Capital Requirements and Contractual Obligations**

During the second quarter of 2015, there were no material changes to the Company's capital requirements or purchase obligations, including payments for the next five years and thereafter.

## Financing

The Company has bank credit facilities, which are used principally for the purpose of backing the Company's commercial paper program and providing letters of credit, as outlined below:

(Unaudited, \$ millions) <b>June 30, 2015</b>	<b>Expiry</b>	<b>Total facilities</b>	<b>Banking commercial paper issued</b>	<b>Letters of credit and other facility draws</b>	<b>Net amounts available</b>
<b>Committed</b>					
Syndicated bank credit facility <sup>1</sup>	December 2017	\$ 200	\$ -	\$ 99	\$ 101
Syndicated bank credit facility	December 2019	350	-	-	350
<b>Total committed</b>		<b>550</b>	<b>-</b>	<b>99</b>	<b>451</b>
<b>Uncommitted</b>					
Bank line of credit	No expiry	25	-	-	25
<b>Total uncommitted</b>		<b>25</b>	<b>-</b>	<b>-</b>	<b>25</b>
<b>Total credit facilities</b>		<b>\$ 575</b>	<b>\$ -</b>	<b>\$ 99</b>	<b>\$ 476</b>

<sup>1</sup> Restricted to letters of credit.

(Unaudited, \$ millions) <b>December 31, 2014</b>	<b>Expiry</b>	<b>Total facilities</b>	<b>Banking commercial paper issued</b>	<b>Letters of credit and other facility draws</b>	<b>Net amounts available</b>
<b>Committed</b>					
Syndicated bank credit facility <sup>1</sup>	December 2017	\$ 200	\$ -	\$ 82	\$ 118
Syndicated bank credit facility	December 2019	350	103	-	247
<b>Total committed</b>		<b>550</b>	<b>103</b>	<b>82</b>	<b>365</b>
<b>Uncommitted</b>					
Bank line of credit	No expiry	25	-	-	25
<b>Total uncommitted</b>		<b>25</b>	<b>-</b>	<b>-</b>	<b>25</b>
<b>Total credit facilities</b>		<b>\$ 575</b>	<b>\$ 103</b>	<b>\$ 82</b>	<b>\$ 390</b>

<sup>1</sup> Restricted to letters of credit.

Letters of credit are issued to meet the credit requirements of energy market participants and conditions of certain service agreements.

The Company has a Canadian base shelf prospectus under which it may raise up to \$1 billion of debt with maturities of not less than one year. At June 30, 2015, the available amount remaining under this base shelf prospectus was \$1 billion (December 31, 2014 - \$1 billion). The base shelf prospectus expires in December 2015.

The Company expects to have sufficient liquidity to finance its plans and fund its obligations for the remainder of 2015 with a combination of cash on hand, cash flow from operating activities, sell down of our interest in Capital Power, the issuance of commercial paper and drawings upon existing credit facilities. The Company has an adequate contractual liquidity position with credit available under various bank lines as described above. Cash flows from operating activities would be impaired by events that cause severe damage to our facilities and would require unplanned cash outlays for system restoration repairs. Under those circumstances, more reliance would be placed on our credit facilities for working capital requirements until a regulatory approved recovery mechanism was in place or insurance proceeds were received.

EPCOR plans to eventually sell all or a substantial portion of its remaining interest in Capital Power subject to market conditions, based on its requirements for capital and other circumstances that may arise in the future.

No commercial paper was issued and outstanding at June 30, 2015 (December 31, 2014 - \$103 million).

### **Financial Covenants**

EPCOR is currently in compliance with all of its financial covenants in relation to its bank credit facilities, Canadian public medium-term notes and U.S. private-debt notes. Based on current financial covenant calculations, the Company has sufficient capacity to borrow to fund current and long-term requirements. Although the risk is low, breaching these covenants could potentially result in a revocation of EPCOR's credit facility causing a significant loss of access to liquidity.

If the economy were to deteriorate in the longer term, particularly in Canada and the U.S., the Company's ability to extend the maturity or revise the terms of its bank credit facilities, arrange long-term financing for its capital expenditure programs and acquisitions, or refinance outstanding indebtedness when it matures could be adversely impacted. If market conditions worsen, the Company may suffer a credit rating downgrade. We believe that these circumstances have a low probability of occurring, however, we continue to monitor our capital programs and operating costs to minimize the risk that the Company becomes short of cash or unable to honor its obligations. If required, the Company would look to reduce capital expenditures and operating costs and / or sell a portion of its investment in Capital Power as market conditions permit.

For further information on the Company's contractual obligations, refer to the 2014 annual MD&A.

### **CRITICAL ACCOUNTING ESTIMATES**

In preparing the condensed consolidated interim financial statements, management necessarily made estimates in determining transaction amounts and financial statement balances. The following are the items for which significant estimates were made in the condensed consolidated interim financial statements: electricity revenues and costs, unbilled consumption of electricity and water, fair values and income taxes. Although the current condition of the economy has not impacted our methods of estimating accounting values, it has impacted the inputs in those determinations and the resulting values. Interim results will fluctuate due to the seasonal demands for electricity and water, changes in electricity prices, and the timing and recognition of regulatory decisions. Consequently, interim results are not necessarily indicative of annual results.

For further information on the Company's other critical accounting estimates, refer to the 2014 annual consolidated financial statements and 2014 annual MD&A.

### **RISK MANAGEMENT**

This section should be read in conjunction with the Risk Management section of the 2014 annual MD&A. EPCOR faces a number of risks including operational risks, regulatory risk, political and legislative risk, electricity price and volume risk, strategy execution risk, risk related to investment in Capital Power, health and safety risk, information technology related security risks, environment risk, project risk, weather risk, financial liquidity risk, availability of people, counterparty credit risk, foreign exchange risk, conflicts of interest, and general economic conditions, business environment and other risks. The Company employs active programs to manage these risks.

As part of ongoing risk management practices, the Company reviews current and proposed transactions to consider their impact on the risk profile of the Company. The risk related to its investment in Capital Power is lower in the condensed consolidated interim financial statements for the six months ended June 30, 2015 compared to the risk profile or risk management strategies of EPCOR as described in the 2014 annual MD&A.

## OUTLOOK

In 2015, we intend to continue to focus on growth in rate-regulated water and electricity infrastructure. We expect this growth to come from new infrastructure to accommodate growth and operational improvements in both rate-regulated water and electricity businesses primarily related to the Edmonton based operations. We also intend to expand our water and electricity commercial services offerings.

Demand for water is expected to continue to increase and we anticipate increased requirements for better water management practices including watershed management and conservation. We will pursue expansion of our portfolio of commercial water contracts, particularly in Canada.

The Alberta Utilities Commission's (AUC) 2013 Generic Cost of Capital decision set the return on equity for 2013 through 2015 to 8.3% (previously 8.75%) for all Alberta natural gas and electricity distribution and transmission utilities. The applications to true up for the reduced approved return on equity will be submitted to the AUC in the second half of 2015. The AUC also reduced the equity portion of the capital structure by 1%, based on improved credit market conditions.

## QUARTERLY RESULTS

(Unaudited, \$ millions)		
Quarters ended	Revenues	Net income
June 30, 2015	\$ 489	\$ 139
March 31, 2015	473	69
December 31, 2014	499	75
September 30, 2014	506	23
June 30, 2014	435	55
March 31, 2014	464	38
December 31, 2013	492	23
September 30, 2013	515	50

Events for the past eight quarters compared to the same quarter of the prior year that have significantly impacted net income include:

- June 30, 2015 second quarter results included gain on sale of a portion of investment in Capital Power and gain on reclassification of investment in Capital Power to an available-for-sale asset. It also includes higher approved water and electricity customer rates, higher fair value adjustments on financial electricity purchase contracts, lower income tax expense due to the re-organization of Energy Services, and favorable fair value adjustments related to the interest rate swap.
- March 31, 2015 first quarter results included higher approved water and electricity customer rates, higher fair value adjustments on financial electricity purchase contracts, higher equity share of income of Capital Power, and lower income tax expense due to the re-organization of Energy Services. This was partially offset by a loss on fair value adjustments related to the interest rate swap.
- December 31, 2014 fourth quarter results included higher approved water and electricity customer rates, recovery of deferred income taxes due to the recognition of loss carry forwards as a result from an increase in forecasted taxable income in Energy Services, gain on dilution of interest in Capital Power and higher income from our equity share of Capital Power, partially offset by higher depreciation on capital assets in service, lower fair value adjustments on interest rate swap and financial electricity purchase contracts, and lower capitalized interest due to lower capital spend during the period.

- September 30, 2014 third quarter results included higher favorable fair value adjustments on financial electricity purchase contracts and higher approved water and electricity customer rates, partially offset by lower income from our equity share of Capital Power.
- June 30, 2014 second quarter results included higher favorable fair value adjustments on financial electricity purchase contracts and higher approved water and electricity customer rates, partially offset by lower income from our equity share of Capital Power.
- March 31, 2014 first quarter results included lower income from our equity share of Capital Power and higher unfavorable fair value adjustments on financial electricity purchase contracts, partially offset by higher approved water and electricity rates.
- December 31, 2013 fourth quarter results included increased income primarily due to a lower impairment charge related to the investment in Capital Power, higher income from our equity share of Capital Power and increased income from higher approved water and electricity customer rates, partially offset by a loss on sale of the partial investment in Capital Power.
- September 30, 2013 third quarter results included lower income primarily due to higher transmission flow-through charges not yet approved to be billed to customers and lower income from our equity share of Capital Power, partially offset by increased income from higher approved water customer rates.

#### **FORWARD - LOOKING INFORMATION**

Certain information in this MD&A is forward-looking within the meaning of Canadian securities laws as it relates to anticipated financial performance, events or strategies. When used in this context, words such as “will”, “anticipate”, “believe”, “plan”, “intend”, “target”, and “expect” or similar words suggest future outcomes.

The purpose of forward-looking information is to provide investors with management’s assessment of future plans and possible outcomes and may not be appropriate for other purposes.

Material forward-looking information within this MD&A, including related material factors or assumptions and risk factors, are noted in the table below:

<b>Forward-looking Information</b>	<b>Material Factors or Assumptions</b>	<b>Risk Factors</b>
The Company expects to have sufficient liquidity to finance its plans and fund its obligations for the remainder of 2015.	EPCOR is able to generate the expected cash flow from operations and various means of funding remain available to the Company.	EPCOR’s operations do not generate the expected level of cash flow and / or circumstances arise limiting or restricting the Company’s ability to access funds through the various means otherwise available.
EPCOR plans to eventually sell all or a substantial portion of its remaining interest in Capital Power.	EPCOR is able to find suitable lower-risk businesses and / or assets to invest the sell-down proceeds in.  Market conditions permit the sale of Capital Power shares at a price suitable to EPCOR.	EPCOR is unsuccessful in finding suitable businesses and / or assets to invest in, therefore negating further sell downs to raise funds.  The market price of Capital Power shares declines to an amount that EPCOR no longer deems it feasible to sell all or substantially all of its interest in Capital Power.

Whether actual results, performance or achievements will conform to the Company’s expectations and predictions is subject to a number of known and unknown risks and uncertainties which could cause actual results to differ from expectations and are identified in the Risk Management section above.

Readers are cautioned not to place undue reliance on forward-looking statements as actual results could differ materially from the plans, expectations, estimates or intentions expressed in the forward-looking statements. Except as required by law, EPCOR disclaims any intention and assumes no obligation to update any forward-looking statement even if new information becomes available, as a result of future events or for any other reason.
