Is your home built? YES NO If yes, construction completion date ____/____/____

Customer Type STANDBY ACTIVE

Terms and Conditions. Resident understands and agrees to the following terms and conditions:

1. Resident agrees that they will obtain water from the Company at the water hauling facility, either through the services of a water hauler or acting as a water hauler themselves, and deliver or have delivered that water to their own residence provided that their residence is in the Rio Verde Foothills community and for homes occupied as of December 12, 2023.
2. Resident agrees that it will not, under any circumstances, allow water from the water hauling facility to be provided to any person or resident within the service territory of any other water utility or municipality providing water services.
3. Resident agrees that it will not, under any circumstances, facilitate or allow the use of water from the water hauling facility anywhere outside the Rio Verde Foothills community.
4. Resident agrees that it will not introduce or use any hazardous substance (meaning any substance, chemical or waste that is identified as hazardous, toxic, or dangerous under any federal, state, or local law or regulation) at the water hauling facility property.
5. Resident acknowledges that access to the water hauling facility is only within designated hours and only through those points designated specifically for access by water haulers. Attempts to gain access during undesignated hours, or attempting access through any points not specifically designated for access, is not permitted, and doing so may result in the cancellation of the customer and/or water hauler account of the person making the attempt.
6. Resident must secure delivery of water sold under this tariff from a water hauler that is in compliance with all applicable Arizona laws / rules / standards for hauling potable water. Resident agrees to use only those water haulers with all necessary permits, and must maintain current permits, approvals and authorizations for water hauling, if such permits, approvals or authorizations are required by Federal, State or local law or regulation. Residents will not, and will ensure that their third party water haulers do not introduce any hazardous substance (meaning any substance, chemical or waste that is identified as hazardous, toxic, or dangerous under any federal, state, or local law or regulation) at the water hauling facility property.
7. Resident understands that the water sold under this tariff will be delivered by a third-party water hauler that is not affiliated with EPCOR. EPCOR is not liable to any customer or third party for any water hauler's actions or inactions arising from the delivery or use of the water purchased from EPCOR. Resident agrees, as a term and condition of service, that EPCOR will not be responsible for the quality of the water (e.g. that the water is potable) once it leaves the water hauling facility and that the resident and /or the water hauler resident chooses to utilize are solely responsible for the safety and the quality of the water delivered.
8. The Company may curtail, restrict or temporarily discontinue the provision of water at the water hauling facility under the rules and regulations of the Arizona Corporation Commission, the Company's tariffs governing water service, or as otherwise permitted by law. Any such curtailment, restriction or temporary discontinuance of service will continue only so long as reasonably necessary. The Company will notify resident of the particular circumstances and the estimated length of time during which service will be curtailed, restricted, or temporarily discontinued, and will make reasonable efforts to resume the provision of water as soon as possible.
9. The resident, once it takes water from the water hauling facility, is responsible for the quality of the water (e.g. that the water is potable). Resident is solely responsible for the safety and quality of the water it purchases and delivers or has delivered to its resident. The Company is not responsible to ensure the quality of the water once it leaves the water hauling facility. Resident agrees to indemnify the Company for any liability from the purchase or use of water purchased from the Company.
10. Resident understands that the provision of water standpipe service is governed by the Company's tariffs as approved by the Arizona Corporation Commission and understands or otherwise agrees with the terms of service as set forth in those tariffs and as those tariffs may change from time to time.

Please indicate your agreement with these terms by providing your notarized signature below and email to mywater@epcor.com
