

Investing in a clean and sustainable water future

Our mission is clean water — protecting and restoring the natural water cycle and providing safe, clean, reliable drinking water and wastewater service. Since 2012, EPCOR has returned more than 18.2 billion gallons to the natural water cycle — enough to cover a football field 55,000 times.

200+ awards for safety, reliability and operational excellence

→ **Join EPCOR for an information session to learn more.**

YOU'RE INVITED

Join the EPCOR team for an information session to learn more about your service, the current rate review application, and how we're carefully managing, protecting and recycling water resources.

Pick one that works for you.
