CUSTOMER ASSISTANCE PROGRAMS

LOW INCOME ASSISTANCE PROGRAM TARIFF

LOW INCOME ASSISTANCE PROGRAM

The Low Income Assistance Program ("Program") offered by the Company is designed as a short-term relief program. The program provides assistance to residential customers in the Gateway Water District. Customers must complete the Low Income Assistance Application and provide necessary documentation to show they meet the qualifying guidelines. Details can be found in the Company's Plan of Administration for the program.

Availability

Customer that meet the eligibility requirements shall be enrolled in the program on a first come, first served basis up to a maximum level of 1 participant for the Gateway Water District. Once the program has reached full participation, any future applicants will be placed on a wait list.

To qualify, applicants must:

- Be a resident and residential customer in the Gateway Water District.
- Be the primary account holder or a person residing in housing in a homeowner's association, apartment complex or mobile home park.
- Not be claimed as a dependent on another person's tax return
- Not have gross annual household income that exceeds 200% of the Federal Poverty Guidelines for the current year (to be updated annually).

There is an annual recertification requirement whereby the applicant must reapply each year based on the timeline determined by the Company.

Low Income Credit

Those customers that are the primary account holder will receive a monthly credit of \$10.00 on their bill. For those customers who reside in multi-unit housing, checks will be written on a bi-annual basis for the number of months that the customer is eligible for the credit during that 6-month period.

Low Income Surcharge

The low income assistance credit will be recovered via a surcharge on the high-usage block to residential and commercial customers in the Gateway Water District. Please see the General Water Rate Tariff for the actual surcharge amounts.

CUSTOMER ASSISTANCE PROGRAMS

LOW INCOME ASSISTANCE PROGRAM TARIFF (continued)

Reporting

The Company will file with Docket Control, by March 31 of each year, an annual report detailing the

- Number of water low income assistance participants from the previous calendar year;
- Total amount of discounts given;
- Direct and indirect costs associated with the program;
- Collections made from all water ratepayers used to fund the program; and
- Provide updated gross annual income guidelines as necessary from the federal government.

The first report will be based on the period January 1, 2021 through December 31, 2021. The reporting period for all subsequent year filings will be on a calendar basis. This report will be filed within 90 days of the end of the initial reporting period, March 31, and then annually thereafter.

As part of each annual filing, the Company will perform a reconciliation for the prior year reporting period comparing the amounts recovered from the surcharge to the amounts credited to the program participants. Any over- or under- collection will be trued up with the subsequent year's program costs.

Annual revisions to the surcharge will become administratively effective 30 days after the filing date.

Terms and Conditions

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts, which are assessed directly or indirectly on the basis of revenues derived from service under this Schedule.

For primary account holders, no checks will be issued for excess credits generated by this program.

CUSTOMER ASSISTANCE PROGRAMS

DEPLOYED SERVICE MEMBER CREDIT PROGRAM TARIFF

DEPLOYED SERVICE MEMBER CREDIT PROGRAM

The Deployed Service Member Credit Program is designed as a temporary relief program for service members serving away from their primary residences for an extended period of time. The program provides relief to service members who are residential customers in the Gateway Water District. Details can be found in the Company's Deployed Service Member Credit Program's Plan of Administration.

Availability

Customers must provide necessary documentation to show they meet the qualifying guidelines. A maximum of 1 service member may be enrolled in the program for the Gateway Water District at any time but the Company is permitted to seek Arizona Corporation Commission's approval to change participant limits based on level of participation.

To qualify for this program, a service member must:

- Be on active duty for the Army, Navy, Marines, Air Force, Coast Guard, or National Guard.
- Be deployed, on a deployment that is not a "permanent change of station" and is not on a short-term deployment in which a spouse and/or dependents remain stateside.
- Have the residence in EPCOR's service area as the service member's primary residence, not secondary to another primary residence.
- Not have any family living in the residence in EPCOR's service area during the service member's absence.

Each service member's eligibility must be determined based on written orders from the service member's command. Each service member's continued eligibility must be determined periodically through a recertification process.

Deployed Service Member Credit

For those qualified customers, during a service member's enrollment, the program will provide a monthly bill credit covering the enrolled service member's entire monthly water bill.

Funding

EPCOR will defer all costs of the program for recovery in EPCOR's next Gateway Water District's general rate case.

MISCELLANEOUS SERVICE CHARGES

This District is authorized to charge the following Service Charges:

As provided for in EPCOR Water Arizona, Inc.'s Gateway Water District's Rules and Regulations, Rule No. 2 (D), the Company will charge the following rates for Water Utility service:

Establishment of Service	\$35.00
Re-Establishment of Service	(c)
Reconnection of Service (Delinquent)	\$35.00
Meter Test (If Correct)	\$35.00
Meter Reread (If Correct)	\$25.00
NSF Check (d)	\$25.00
Automated Meter Opt-Outs (e)	
Establishment Fee	\$35.00
Monthly Manual Read Fee	\$25.00
Late Charge, per month	1.5%
Deferred Payment, per month	1.5%
Deposit Requirement (Residential)	(a)
Deposit Requirement (Non-Residential)	(a)
Deposit Interest	(a)
After Hours Service Call Out (b)	\$35.00

- (a) Per Commission Rules R14-2-403(B)
- (b) After Hours Service Charge: After regular working hours, Saturdays, Sundays and holidays if at the customer's request or for the customer's convenience.
- (c) Monthly minimum times number of months disconnected from the system at the same location where the same customer had ordered a service disconnection within the preceding 12-month period. If the customer is also a wastewater customer, the customer will only be charged for water reconnection.
- (d) Only one NSF fee can be charged when customers are billed for water and wastewater services on one bill.
- (e) The Automated Meter Opt-Out Establishment Fee would apply to new customers choosing this opt-out service.

In addition to the collection of regular rates, the utility will collect from its customers a proportionate share of any privilege, sales, use, franchise or other governmental tax, per Commission Rule 14-2-409.D.5.

HOOK-UP FEES

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona, Inc. (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company’s establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

“Common Facilities” means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the entire water system and not for the exclusive use of the Applicant’s development.

“Service Connection” means and includes all service connections for single-family residential or other uses, regardless of meter size.

HOOK-UP FEES

COMMON FACILITIES HOOK-UP FEE (continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The refund may be paid in installments over a period of time pursuant to an agreement between the Company and the developer on a case by case basis. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction.

HOOK-UP FEES

COMMON FACILITIES HOOK-UP FEE (continued)

(H) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(I) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(J) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(K) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2022, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

HOOK-UP FEES

COMMON FACILITIES HOOK-UP FEE (continued)

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Company to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Company, and must have the appropriately allocated water rights that will be conveyed to Company. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with the Company that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Company on an annual basis. Continued excessive use could result in Company requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.

BEST MANAGEMENT PRACTICES

New Homeowner Landscape Information Tariff – BMP 2.3

PURPOSE

A program for the Company to promote the conservation of water by providing a landscape information package for the purpose of educating its new customers about low water use landscaping (Modified Non-Per Capita Conservation Program BMP Category 2: Conservation Education and Training 2.3: New Homeowner Landscape Information).

REQUIREMENTS:

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. Upon establishment of water service the Company shall offer and make available upon request a free "Homeowner Landscape Packet" to each new customer in the Company's service area. The packet will include at a minimum: a cover letter describing the water conservation expectations for all customers in the Company's service area, applicable rate tariffs, a basic interior/exterior water saving pamphlet, xeriscape landscape information, a list of low water use trees, plants, shrubs, etc., watering guidelines, and a rain water harvesting pamphlet.
2. Upon customer request, the Company shall provide:
 - a. On-site consultations on low water use landscaping and efficient watering practices.
 - b. A summary of water saving options.
3. The Company shall keep a record of the number of packets provided to new customers and make it available to the Commission upon request.

CURTAILMENT TARIFF

CURTAILMENT PLAN FOR GATEWAY WATER DISTRICT

ADEQ Public Water System No: 08-163

EPCOR Water Arizona Inc. ("Company"), is authorized to curtail water service to all customers within its certificated area under the terms and conditions listed in this tariff.

This curtailment plan shall become part of the Arizona Department of Environmental Quality Emergency Operations Plan for the Company.

The Company shall notify its customers of this new tariff as part of its next regularly scheduled billing after the effective date of the tariff or no later than sixty (60) days after the effective date of the tariff.

The Company shall provide a copy of the curtailment tariff to any customer, upon request.

Stage 1 Exists When:

Company is able to maintain water storage in the system at 100 percent of capacity and there are no known problems with its well production or water storage in the system.

Restrictions: Under Stage 1, Company is deemed to be operating normally and no curtailment is necessary.

Notice Requirements: Under Stage 1, no notice is necessary.

Stage 2 Exists When:

- a. Company's water storage or well production has been less than 80 percent of capacity for at least 48 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 2, the Company may request the customers to voluntarily employ water conservation measures to reduce water consumption by approximately 50 percent. Outside watering should be limited to essential water, dividing outside watering on some uniform basis (such as even and odd days) and eliminating outside watering on weekends and holidays.

CURTAILMENT TARIFF

CURTAILMENT PLAN FOR GATEWAY WATER DISTRICT

Stage 4 Exists When:

- a. Company's total water storage or well production has been less than 25 percent of capacity for at least 12 consecutive hours, and
- b. Company has identified issues such as a steadily declining water table, increased draw down threatening pump operations, or poor water production, creating a reasonable belief the Company will be unable to meet anticipated water demand on a sustained basis.

Restrictions: Under Stage 4, Company shall inform the customers of a mandatory restriction to employ water conservation measures to reduce daily consumption. Failure to comply will result in customer disconnection. The following uses of water shall be prohibited:

- ◆ Irrigation of outdoor lawns, trees, shrubs, or any plant life is prohibited
- ◆ Washing of any vehicle is prohibited
- ◆ The use of water for dust control or any outdoor cleaning uses is prohibited
- ◆ The use of drip or misting systems of any kind is prohibited
- ◆ The filling of any swimming pool, spas, fountains or ornamental pools is prohibited
- ◆ The use of construction water is prohibited
- ◆ Restaurant patrons shall be served water only upon request
- ◆ Any other water intensive activity is prohibited

The Company's operation of its standpipe service is prohibited. The addition of new service lines and meter installations is prohibited.

Notice Requirements:

1. Company is required to notify customers by delivering written notice to each service address, or by United States first class mail to the billing address or, at the Company's option, both. Such notice shall notify the customers of the general nature of the problem and the need to conserve water.
2. Beginning with Stage 4, Company shall post at least four (4) signs showing the curtailment stage. Signs shall be posted at the well and/or pump sites located within the Gateway Water District
3. Company shall notify the Consumer Services Section of the Utilities Division of the Corporation Commission at least 12 hours prior to entering Stage 4.

CURTAILMENT TARIFF

CURTAILMENT PLAN FOR GATEWAY WATER DISTRICT

Customers who fail to comply with the above restrictions will be given a written notice to end all outdoor use. Failure to comply within two (2) working days of receipt of the notice will result in temporary loss of service until an agreement can be made to end unauthorized use of outdoor water. To restore service, the customer shall be required to pay all authorized reconnection fees. If a customer believes he/she has been disconnected in error, the customer may contact the Commission's Consumer Services Section at 1-800-222-7000 to initiate an investigation.

Once Stage 4 has been reached, the Company must augment the supply of water by hauling or through an emergency interconnect from an approved supply or must otherwise provide emergency drinking water for its customers until a permanent solution has been implemented.

CROSS-CONNECTION AND/OR BACKFLOW TARIFF

PURPOSE:

The purpose of this tariff is to protect EPCOR Water Arizona, Inc.'s Gateway Water District's ("Company") water from the possibility of contamination caused by the backflow of contaminants that may be present on the customer's premises by requiring the installation and periodic testing of backflow prevention assemblies pursuant to the provisions of the Arizona Administrative Code ("A.A.C.") R14-2-405.B.6 and A.A.C. R18-4-215.

REQUIREMENTS:

In compliance with the Rules of the Arizona Corporation Commission ("Commission") and the Arizona Department of Environmental Quality ("ADEQ"), specifically A.A.C. R14-2-405.B.6 and A.A.C. R18-4-215 relating to backflow prevention:

1. The Company may require a customer to pay for and to have installed a backflow-prevention assembly if A.A.C. R18-4-215.B or C applies.
2. A backflow-prevention assembly required to be installed by the customer under Paragraph 1 of this tariff shall comply with the requirements set forth in A.A.C. R18-4-215.D and E.
3. Subject to the provisions of A.A.C. R14-2-407 and 410, and in accordance with Paragraphs 1 and 7 of this tariff, the Company may terminate service or may deny service to a customer who fails to install a backflow-prevention assembly as required by this tariff.
4. The Company shall give any existing customer who is required to install a backflow-prevention assembly written notice of said requirement. If A.A.C. R14-2-410.B.1.a. is **not** applicable, the customer shall be given thirty (30) days from the time such written notice is received in which to comply with this notice. If the customer can show good cause as to why he cannot install the backflow-prevention assembly within thirty (30) days, the Company or Commission Staff may suspend this requirement for a reasonable period of time.

CROSS-CONNECTION AND/OR BACKFLOW TARIFF

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.

6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:

- a. assembly identification number and description;
- b. location
- c. date(s) of test(s);
- d. description of repairs and recommendations for repairs made by tester; and
- e. the tester's name and certificate number.

7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.

8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is not applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C R14-2-410.

WATER SERVICES TERMINATION AGREEMENT

WITH THE CITY OF BULLHEAD CITY

EPCOR Water Arizona Inc. ("Company") has been granted a variance from Arizona Corporation Commission Rule A.A.C. R14-2-410.A.2 for the limited purpose of entering into a Water Service Termination Agreement ("Agreement") with the City of Bullhead City ("City"), a municipal provider of wastewater service, for common customers purchasing water from the Company and wastewater from the City. The purpose of this Tariff, and the authorized variance from A.A.C. R14-2-410.A.2, is to assist the City in collecting delinquent payments for wastewater utility service provided to common customers of the Company.

The Company shall comply with the terms and conditions of the Agreement.

The Agreement with the City is incorporated into this tariff and available upon request.
