GENERAL WATER SERVICE
(continued)

Terms and Conditions

Water service provided under this rate schedule is subject to this District's Rule and Regulations applicable to Water Service and may be subject to this District's Service Charges set forth in Rate Schedule Service Charges and adjutor mechanisms included in the Company's tariffs on file with the Arizona Corporation Commission.

Water service under this Schedule is for the exclusive use of the Customer and water shall not be resold or provided to others.

In addition to the collection of its regular rates and charges, the Company shall collect from its customers a proportionate share of any privilege, sales or use and franchise tax ,per Commission Rule 14-2-409.D.5.

A 1 ½ % late payment penalty will be applied to account balances not paid within fifteen (15) days after the postmark date of the bill in accordance with Arizona Administrative Code R14-2-310.C.

Low Income Program: Monthly Low Income Credit of \$10.00 is available in the Sun City West Water District. Requires the completion of a Low Income Program Application. Program is restricted to the first 100 eligible residential customers on 5/8 x 3/4 inch meters in the Sun City West Water district. Applicants must swear that he/she has annual income below the threshold. The threshold is below 150% of the federal low income guidelines as periodically revised. Applicant may not be claimed as a dependent on another person's tax return. Applicant must reapply each time moving residences. Refusal or failure to provide acceptable documentation of eligibility, upon request, shall result in removal from the low income program. Rebilling of customers under the otherwise applicable rate schedule may occur for periods of ineligibility previously billed under the low income tariff. Annual income means the value of all money and non-cash benefits available for living expenses, from all sources, both taxable and non-taxable, before deductions, for all people who live with the applicant

Customer High Water Use Notification Tariff – BMP 3.7**PURPOSE**

A program for the Company to monitor and notify customers when water use seems to be abnormally high and provide information that could benefit those customers and promote water conservation (Modified Non-Per Capita Conservation Program BMP Category 3: Outreach Services Program 3.7: Customer High Water Use Notification).

REQUIREMENTS

The requirements of this tariff are governed by Rules of the Arizona Corporation Commission and were adapted from the Arizona Department of Water Resources' Required Public Education Program and Best Management Practices in the Modified Non-Per Capita Conservation Program.

1. The Company shall track water usage for each customer and notify the customer if water use seems excessive for that particular billing for that time of the year.
2. The Company shall identify customers with high consumption, verify the high consumption, and investigate each instance to determine the possible cause.
3. The Company shall contact the high water use customers via telephone, email, by mail or in person. The Company shall contact the customer as soon as practical in order to minimize the possible loss of water. The customer will not be required to do anything to receive this notification.
4. In the notification the Company shall explain some of the most common water usage problems and common solutions and points of contact for dealing with the issues.
5. In the notification, the customer will be reminded of possible high water-consumption occurrences, such as:
 - a. Leaks, running toilets, or valves or flappers that need to be replaced.
 - b. Irrigation system valves or sprinkler heads which may be leaking.
 - c. Sprinklers that may be watering the house, sidewalk, or street, etc. increasing irrigation requirements.
 - d. Leaking pool or spas and possible leaks around pumps.
 - e. More people in the home than usual taking baths and showers.
 - f. Doing more loads of laundry than usual.
 - g. Doing a landscape project or starting a new lawn.
 - h. Washing vehicles more often than usual.

CUSTOMER WATER CONSUMPTION INFORMATION SHARING
WITH CITY OF SURPRISE, WASTEWATER PROVIDER

EPCOR Water Arizona Inc. ("EWAZ" or "Company") is authorized to share water consumption information of individual customers with the City of Surprise ("the City"), a municipal provider of wastewater service for common customers purchasing water from EWAZ and wastewater from the City. The purpose of this Tariff, and the authorized provision of customer water consumption information, is to assist the City in billing for wastewater utility services. City agrees that it is only authorized to use such water consumption information for purposes of wastewater services billing and is not authorized to disclose such information to any other party except as may be required by law.

EWAZ entered into an Agreement with the City for providing individual water consumption data, in a form materially similar to the standard form agreement. The Agreement was subject to Arizona Corporation Commission ("Commission") review as set forth in Section 6 of the agreement.

EWAZ shall notify all water utility customers affected by the agreement between the Company and the City pursuant to this Tariff, by means of a billing insert during the first billing cycle immediately after said tariff is approved.

CROSS-CONNECTION OR BACKFLOW TARIFF
(continued)

5. Testing shall be in conformance with the requirements of A.A.C. R18-4-215.F. The Company may require the customer to pay to have the backflow-prevention assembly tested as long as the Company does not require an unreasonable number of tests.
6. The customer shall provide the Company with records of installation and testing. For each backflow-prevention assembly, these records shall include:
 - a. assembly identification number and description;
 - b. location
 - c. date(s) of test(s);
 - d. description of repairs and recommendations for repairs made by tester; and
 - e. the tester's name and certificate number.
7. In the event the backflow-prevention assembly does not function properly or fails any test, and an obvious hazard as contemplated under A.A.C. R14-2-410.B.1.a. exists, the Company may terminate service immediately and without notice. The backflow-prevention assembly shall be repaired or replaced by the customer and retested.
8. In the event the backflow-prevention assembly does not function properly or fails any test, or in the event that a customer fails to comply with the testing requirement, and A.A.C. R14-2-410.B.1.a. is **not** applicable, the backflow prevention assembly shall be repaired or replaced within fourteen (14) days of the initial discovery of the deficiency in the assembly or its function. Failure to remedy the deficiency or dysfunction of the assembly, or failure to retest, shall be grounds for termination of water service in accordance with A.A.C R14-2-410.

ADJUSTOR MECHANISMS
(continued)

PROPERTY TAX ADJUSTOR MECHANISM ("PTAM")

The PTAM allows the Company to pass through to its customers the increases or decreases in property tax expenses that result from changes to the assessment ratio or property tax rate. Pass through costs will be divided equally between residential and non-residential customer classes to collect the total increase over a 12-month period. Details can be found in the Company's Property Tax Adjustor Mechanism Plan of Administration.

Applicability

Applicable to all customers served by this service area.

PTAM Surcharge Rate for all Customers:

All usage per 1,000 gallons per month \$X.XXXX *

* Rate consists of \$X.XXXX per 1,000 gallons of usage to recover the over/under collection of prior years' surcharge and \$X.XXXX per 1,000 gallons of usage for the collection of current power charges.

Terms and Conditions

The Company will annually file with the Commission by March 1 the proposed annual PTAM surcharge for the current calendar year. The filing shall detail how the Company's property tax expenses were calculated by parcel by year. These calculations will include full cash value, assessment ratio, and tax rates by parcel. All documentation to support the proposed surcharge will be included.

As part of each annual filing, the Company will perform a reconciliation for the prior reporting period comparing the amounts recovered from/refunded to customers to the amount of increase/decrease in property tax expenses due to changes in rates for that same period resulting in either an under / (over) recovery. This true-up will be included in the annual calculation.

The revised PTAM surcharge will be effective on June 1 of each year.

The PTAM surcharge will appear on each applicable customer bill as a separate line item.

All rates in this Schedule shall be subject to their proportionate part of any taxes or other governmental imposts that are assessed directly or indirectly on the basis of revenues derived from this Schedule.

BILLING ADJUSTMENT TARIFF

1. **PURPOSE**

1.1. To outline EPCOR's general procedure on adjusting customer water utility bills.

2. **SCOPE**

2.1. This procedure pertains to billing adjustments for accounts with lost meters, stopped meters, and other situations where usage has been identified or service received but not billed (or under billed). Parameters within this procedure do not necessarily apply to situations where customer tampering, theft, or other actions that prevent access to the water meter are involved.

3. **PROCEDURE**

3.1. **Timeframe** – In cases where accounts have been identified as having water usage but have not been billed (or have been under billed), EPCOR will adjust the bill for the period identified not to exceed two years from the point of customer notification or adjustment generation. Customers will be provided the ability to spread their payments for the adjustment amount over the same time period for which the usage occurred. EPCOR will have the option of spreading the payment term beyond the original usage period, depending on the circumstances, with approval from the Customer Service Manager or Customer Service Director.

3.2. **Estimated Usage for Stopped Meters** – Usage for stopped meters will generally be calculated based on historical usage for similar timeframes. If the customer has had changes in their usage pattern based on conservation efforts, economic factors, leak repairs, or changes to the number of occupants, these *may* be considered in adjusting the usage estimate from historical data. There may be cases where the usage is monitored or a period of time after the meter has been replaced to determine the appropriate billing adjustment amount.

3.3. **Meter Accuracy Corrections** – If any meter after testing is found to be more than 3% inaccurate, either fast or slow, proper correction between 3% and the amount of the error shall be made of previous readings and adjusted bills shall be rendered according to the following terms:

3.3.1. For the period of 3 months immediately preceding the removal of such meter from service for test or from the time the meter was in service since last tested, but not exceeding 3 months since the meter shall have been shown to be in error by such test, or

3.3.2. From the date the error occurred, if the date of the cause can be definitely fixed.

3.3.3. No adjustment shall be made by the utility except to the customer last served by the meter tested.

BILLING ADJUSTMENT TARIFF
(continued)

- 3.4. **Managing Large and/or Extended Adjustments** – Bill adjustment amounts over \$2,500 that extend beyond two billing cycles will be reviewed by EPCOR and communication with the customer will be attempted prior to posting the bill to the customer account. Three unsuccessful attempts to contact the customer via the contact means provided on the customer account shall release the bill to the customer's account for posting.
- 3.5. **Customer Appeals** – Customers may appeal adjustment decisions in writing or by contacting a customer care representative the appeal will be escalated to the appropriate party and a determination will be made within 90 days.
- 3.6. **Exceptions** – It is recognized that there may be specific situations or unique circumstances where there is a management decision not to adjust a customer or group of customers.

COMMON FACILITIES HOOK-UP FEE

I. Purpose and Applicability

The purpose of the Common Facilities hook-up fee payable to EPCOR Water Arizona, Inc. (“the Company”) pursuant to this tariff is to equitably apportion the costs of constructing additional common water facility infrastructure to provide water production, delivery, treatment, storage and pressure among all new service connections. These charges are applicable to all new service connections established after the effective date of this tariff. The charges are one-time charges and are payable as a condition to the Company’s establishment of service, as more particularly provided below.

II. Definitions

Unless the context otherwise requires, the definitions set forth in R-14-2-401 of the Arizona Corporation Commission’s (“Commission”) rules and regulations governing water utilities shall apply interpreting this tariff schedule.

“Applicant” means any party entering into an agreement with the Company for the installation of water facilities to serve new service connections, and may include developers and/or builders of new residential subdivisions.

“Main Extension Agreement” means any agreement whereby an Applicant, Developer and/or Builder agrees to advance the costs of the installation of water facilities, which may include Common Facilities, to the Company to serve new service connections, or install water facilities to serve new service connections and transfer ownership of such water facilities to the Company, in either case which agreement shall require the approval of the Commission pursuant to A.A.C. R-14-2-406, and shall have the same meaning as “Water Facilities Agreement” or “Line Extension Agreement.”

“Common Facilities” means all wells, storage tanks, production, treatment, booster pumps, pressure tanks, transmission mains and related appurtenances, including engineering and design costs, constructed for the benefit of the entire water system and not for the exclusive use of the Applicant’s development.

“Service Connection” means and includes all service connections for single-family residential or other uses, regardless of meter size.

COMMON FACILITIES HOOK-UP FEE

(continued)

III. Common Facilities Water Hook-up Fee

For each new service connection, the Company shall collect a Common Facilities hook-up fee derived from the following table:

COMMON FACILITIES HOOK-UP FEE TABLE		
Meter Size	Size Factor	Total Fee
5/8" x 3/4"	1	\$1,680.00
3/4"	1.5	\$2,520.00
1"	2.5	\$4,200.00
1-1/2"	5	\$8,400.00
2"	8	\$13,440.00
3"	16	\$26,880.00
4"	25	\$42,000.00
6" or larger	50	\$84,000.00

IV. Terms and Conditions

(A) Assessment of One Time Common Facilities Hook-up Fee: The Common Facilities hook-up fee may be assessed only once per parcel, service connection, or lot within a subdivision (similar to meter and service line installation charge).

(B) Use of Common Facilities Hook-up Fee: Common Facilities hook-up fees may only be used to pay for capital items of Common Facilities, or for repayment of loans obtained for installation of Common Facilities. Common Facilities hook-up fees shall not be used for repairs, maintenance, or operational purposes.

(C) Time of Payment:

1) In the event that the Applicant that will be constructing improvements is required to enter into a Main Extension Agreement, payment of the Common Facilities hook-up fees required hereunder shall be made by the Applicant no later than within 15 calendar days after receipt of notification from the Company that the Utilities Division of the Arizona Corporation Commission has approved the Main Extension Agreement in accordance with R-14-2-406(M).

COMMON FACILITIES HOOK-UP FEE

(continued)

2) In the event that the Applicant for service is not required to enter into a Main Extension Agreement, the charges hereunder shall be due and payable at the time the meter and service line installation fee is due and payable.

(D) Common Facilities Construction by Developer: The Company and Applicant may agree to construction of Common Facilities necessary to serve a particular development by Applicant which facilities are then conveyed to the Company. In that event, Company shall credit the total cost of such Common Facilities as an offset to the Common Facilities hook-up fees due under this Tariff. If the total cost of the Common Facilities constructed by Applicant and conveyed to Company is less than the applicable Common Facilities hook-up fee due under this Tariff, Applicant shall pay the remaining amount of the Common Facilities hook-up fees owed hereunder. If the total cost of the Common Facilities contributed by Applicant, Developer or Builder and conveyed to Company is more than the applicable Common Facilities hook-up fees under this Tariff, Applicant shall be refunded the difference upon acceptance of the Common Facilities by the Company. The Company and Applicant may agree to construction of additional facilities that are not Common Facilities, the cost of which shall not be subject to off-set under this paragraph IV.D, but which will be subject to refund under R14-2-406(D).

(E) Failure to Pay Charges; Delinquent Payments: The Company will not be obligated to provide water service to any Applicant or other applicant for service in the event that such Applicant or other applicant for service has not paid in full all charges hereunder. Under no circumstances will the Company set a meter or otherwise allow service to be established if the entire amount of any payment has not been paid.

(F) Large Subdivision Projects: In the event that the Applicant is engaged in the development of a residential subdivision containing more than 150 lots, and is a party to a Main Extension Agreement with the Company for such development, the Company may, in its discretion, agree to payment of the Common Facilities hook-up fees in installments. Such installments may be based on the residential subdivision development's phasing, and should attempt to equitably apportion the payment of charges hereunder based on the Applicant's construction schedule and water service requirements.

(G) Common Facilities Hook-Up Fees Non-refundable: The amounts collected by the Company pursuant to the Common Facilities hook-up fee tariff shall be non-refundable contributions in aid of construction.

COMMON FACILITIES HOOK-UP FEE)

(continued)

(H) Use of Common Facilities Hook-Up Fees Received: All funds collected by the Company as Common Facilities hook-up fees shall be deposited into a separate interest bearing trust account and used solely for the purposes of paying for the costs of the Common Facilities, including repayment of loans obtained for the installation of Common Facilities that will benefit the entire water system.

(I) Common Facilities Hook-up Fee in Addition to On-site Facilities: The Common Facilities hook-up fee shall be in addition to any costs associated with the construction of on-site facilities or other additional facilities under Paragraph IV.D, above, under a Main Extension Agreement.

(J) Disposition of Excess Funds: After all necessary and desirable Common Facilities are constructed utilizing funds collected pursuant to the Common Facilities hook-up fees, or if the Common Facilities hookup fee has been terminated by order of the Arizona Corporation Commission, any funds remaining in the trust shall be refunded. The manner of the refund shall be determined by the Commission at the time a refund becomes necessary.

(K) Fire Flow Requirements: In the event the Applicant has fire flow requirements that require additional facilities beyond those facilities whose costs were included in the Common Facilities hook-up fee, and which are contemplated to be constructed using the proceeds of the Common Facilities hook-up fee, the Company may require the Applicant to install such additional facilities as are required to meet those additional fire flow requirements, as a non-refundable contribution, in addition to paying the Common Facilities hook-up fee.

(L) Status Reporting Requirements to the Commission: The Company shall submit a calendar year Common Facilities hook-up fee status report each January 31 to Docket Control for the prior twelve (12) month period, beginning January 31, 2018, until the Common Facilities hook-up fee tariff is no longer in effect. This status report shall contain a list of all customers that have paid the Common Facilities hook-up fee tariff, the amount each has paid, the amount of money spent from the account, the amount of interest earned on the tariff account, and a list of all facilities that have been installed with the tariff funds during the 12-month period.

COMMON FACILITIES HOOK-UP FEE (WATER)

(continued)

LARGE WATER-USERS

Any development with a projected average daily water demand greater than 1,700 gallons per day per acre is considered to be a Large User. Large Users will be required to provide an additional renewable water supply source to Utility to meet the demands of the development that are greater than 1,700 gallons per day per acre. Examples of a renewable water supply source include surface water or a groundwater well with long-term storage credits. The renewable water supply source must be approved by Utility, and must have the appropriately allocated water rights that will be conveyed to Utility. The cost to provide a renewable water supply source to Utility will not be credited as an offset to the Common Facilities Hook-Up Fee because such costs will be due to the exclusive need for additional water by the Large User; however, the cost of that portion of a renewable water supply source that is in excess of the Large User's needs will be credited as an offset to the Common Facilities Hook-Up Fee.

Large Users may be required to enter into an agreement with Utility that will define terms and conditions, and will include fees that will be charged to Large Users for over usage. Fees will incur if Large Users use water in excess of the supply source provided, which will be reviewed by Utility on an annual basis. Continued excessive use could result in Utility requiring the Large User to develop and implement a water use reduction plan or, as a last resort, court action.
