Schedule A – Water Service Connection

Applicability: To all applications for Water Service from an existing water distribution main.

Rates:

(a) Connection Charge ----- At Cost

The Connection Charge recovers the cost incurred by the Utility, not otherwise recovered, of installing a service connection from the water main to a curb stop and, if required, a meter at the property line of the Customer’s Premises or in the building. Cost includes any administrative overhead incurred.

(b) Connection of Customer’s Service Pipe to an Existing Curb Stop -- At Cost

Where, at a time prior to a Customer’s application for service, a service connection has been installed at no cost to the Utility or at a cost otherwise recovered by the Utility, then upon connection of the service pipe, the rate shown in (b) shall be paid upon application for service.

Schedule B – Contribution in Aid of Future Construction

Applicability: Where as a result of Premises becoming qualified as Authorized Premises and a greater number of units require or may require service from the Utility, thus utilizing Waterworks capacity presently or in the future. Then upon application for an extension of service, in addition to the water service connection charge and any main extension costs, the charges shown below shall be paid.

Monies collected are to be deposited to the Utility’s Deferred Capacity Trust Fund and may only be released with the written authorization of the Comptroller of Water Rights.

Rates:	<u>Charge</u>
For each unit qualifying as Authorized Premises	\$8,500*

* Charge is based on the following consumption levels per Customer class at peak daily demand:

Residential – 900 Imperial Gallons (4.1 cubic meters)

Multi-Residential – 700 Imperial Gallons (3.2 cubic meters)

Commercial – 500 Imperial Gallons (2.3 cubic meters)
