**MAIN EXTENSION AGREEMENTS**

A. EXTENSIONS OF MAINS AND SERVICES; ADVANCES IN AID OF CONSTRUCTION - GENERAL REQUIREMENTS

The Company will supply service for temporary purposes, provided that the Company has water available in excess of the Company's regular needs, and provided the Company has available material and equipment necessary to supply said service. Each applicant for such service must pay in advance, to the Company, the Company's estimate of the cost of labor and materials, less salvage value on removal, for installing and removing such service.
  
2. An applicant for the extension of mains shall be required to pay the Company, as a refundable advance in aid of construction, before construction is commenced, the estimated reasonable cost of all mains, distribution lines and service lines, including all valves, fittings, meters, other costs and reasonable overheads.
  - a. Upon request by a potential applicant for a main extension, the Company shall prepare, without charge, a preliminary sketch and rough estimates of the cost of installation to be paid by said applicant.
  
  - b. Any applicant for a main extension requesting the Company to prepare detailed plans, specifications, or cost estimates may be required to deposit with the Company an amount equal to the estimated cost of preparation. The Company shall, upon request, make available within forty-five (45) days after receipt of the deposit referred to above, such plans, specifications, or cost estimates of the proposed main extension. Where the applicant accepts the plans and the Company proceeds with construction of the extension, the deposit shall be credited to the cost of construction; otherwise the deposit shall be nonrefundable. If the extension is to include over-sizing of facilities to be done at the Company's expense, appropriate details shall be set forth in the plans, specifications and cost estimates.
  
  - c. In the event that additional facilities are required to provide or sustain pressure, storage, or water supply for the new service or services requested, or for existing customers as a consequence of the extension of service, and the cost of the additional facilities is disproportionate to anticipated revenues to be derived from the future customers, the estimated reasonable cost of such additional facilities may be included in refundable advances in aid of construction to be paid to the Company.
  
3. Refunds of advances shall be made in accord with the following method: the Company shall each year, pay to the party making an advance under a main extension agreement, or that party's assigns or other successors in interest where the Company has received notice and evidence of such assignment or succession, an amount equal to ten per centum (10%) of the total gross annual revenue, less any gross receipts or sales taxes and amounts payable to any municipalities or others for treatment and/or transmission of water from each bonafide customer whose service is connected directly to main or extension lines covered by the main extension agreement. Refunds shall not be made for any period after the expiration of ten (10) years from the date of the advance. Refunds shall be made by the Company on or before the 31st day of August of each year, covering any refunds owing from water revenues received during the preceding July 1st to June 30th period. A balance remaining at the end of the ten-year period shall become non-refundable, and the balance not refunded shall be entered as a contribution in aid of construction in the accounts of the Company.

**MAIN EXTENSION AGREEMENTS**

4. The aggregate refunds shall in no event exceed the total of the refundable advances in aid of construction. No interest shall be paid by the Company on any amount advanced. The Company shall make no refunds from any revenues received from any lines or mains, other than customer service lines, leading up to, or taking off, from the particular main extension covered by the agreement.
5. The Company may, upon approval by the Commission, terminate its obligation to refund a percentage of gross revenues from a main extension by accord and satisfaction of its obligations under the main extension agreement.
6. All agreements entered into shall be evidenced by a written agreement, and signed by the Company and all parties advancing the funds for advances in aid of construction, or the duly authorized agents of each.

Such schedules show a breakdown of the contract prices of materials and costs of installation. Different sizes and types of mains shall be separately stated. Valves, meters, and fittings shall be separately stated or listed as a percentage of total cost. All advances shall be made without provision for profit to the Company but shall include reasonable overheads.
10. The Company shall schedule, within reason, new requests for main extension agreements and for service under main extension agreements, promptly and in order received.
11. If an applicant for service seeking to enter into a main extension agreement deems the contract price or the time of performance to be unreasonable, the applicant may solicit bids from bonded contractors, provided that all bids shall be submitted by the bid date stipulated by the Company. If a lower bid is obtained, or if a bid is obtained at an equal price with a more appropriate time of performance, and if such bid contemplates total conformity with the Company's requirements and specifications, the Company shall be required to meet the terms and conditions of the bid proffered, or to enter into a construction contract with the contractor proffering such bid. A performance bond in the total amount of the contract may be required by the Company from the contractor prior to construction.
12. In the case of disagreement or dispute regarding the application of this rule or any of its several provisions, or where the application of this rule works an injustice or undue hardship upon any party or anticipated party to any agreement hereunder, the party aggrieved may refer the matter to the Commission for hearing and decision in accord with the Rules of Practice and Procedure of the Commission.

2. For construction or proposed construction which, in the judgment of the Company, will be utilized by ultimate customers of the Company in the near future, the Company shall account for the advances and/or contributions required by this Rule by "Rate Basing" them as defined in Paragraph D.1.b. 5. In the event contributor/advancer is required by other tariff, agreement, rule or order to advance Facilities for the subject development, those AIAC/CIAC's shall be subject to the provisions of this Section D.

7. Paragraphs 1-7 of this Section of the Extension Rule shall apply to all refundable AIAC and CIAC agreements entered into on or after September 1, 1988, as well as to all prior AIAC and CIAC agreements performed in any manner after September 1, 1988.
