

# CONSTRUCTION NOTICE

Capital Line South LRT Utility Relocation Project  
111 Street NW from 19 Avenue NW to 25 Avenue NW

**MAY 2023**

## PROJECT OVERVIEW

As part of the City of Edmonton's Capital Line South LRT Extension Project, EPCOR is responsible for relocating all the power, water and drainage utilities to avoid potential conflicts with future LRT infrastructure. This line is an extension of the current Capital Line, which will operate from Century Park to Ellerslie Road.

To meet the overall LRT project schedule, the City of Edmonton has requested that EPCOR perform the utility relocations within specific areas along the alignment prior to LRT construction. EPCOR Capital Line LRT projects began in March 2023 and will continue until 2024.

## WHAT'S HAPPENING?

Starting in late May, for approximately three months, EPCOR will be working along 111 Street NW from 19 Avenue NW to 25 Avenue NW to relocate electricity infrastructure.

To install new underground power cables, EPCOR will be using a hydrovac truck for most of the excavation work. After excavating in certain areas, horizontal directional drilling will be used to install new underground power cables between sites. While the power cables are being installed, EPCOR will make small excavations throughout the route, to verify and avoid locations of existing utilities and ensure no damage occurs.

Open cut trenching is required to relocate power lines within the east (northbound) side of 111 Street NW at 25 Avenue NW. EPCOR will also be relocating some above ground electrical infrastructure such as transformers and switching cubicles in the area.

## SCHEDULE

Construction will begin in **late May** and is expected to be complete within **three months**, weather permitting. The typical hours of construction will be **7:00 a.m. to 9:00 p.m., Monday to Saturday**. Some overnight work may be required to avoid potential daytime outages.

## PROJECT DETAILS

Residents and businesses can expect to see activity that is typical to construction, including company/contractor vehicles and equipment.

### Power Outages

Power outages may be necessary at times to ensure work can be completed safely. Customers can learn more about power outages at [epcor.com/poweroutages](http://epcor.com/poweroutages).

### Noise

This project may be noisy at times. We will comply with the City of Edmonton's Community Standards Bylaw for Noise Control. If it is necessary to temporarily exceed acceptable noise levels, we will work with the City of Edmonton to obtain the necessary permits.

### Restoration

Landscaping and pavement will be restored after construction is complete and weather permits.

## PROJECT AREA

Please note work areas may change due to weather or ground conditions.

## TRAFFIC IMPACTS

- Temporary road/lane and sidewalk restrictions are expected along the east side of 111 Street NW from 19 Avenue NW to 25 Avenue NW. Signage will indicate traffic detours as required.
- For two weeks, traffic traveling northbound on 111 Street NW at 25 Avenue NW will be reduced to one lane, so that work can be conducted safely.

## PEDESTRIAN IMPACTS

- Temporary sidewalk restrictions are expected along the east side of 111 Street NW from 19 Avenue NW to 25 Avenue NW. Signage will indicate pedestrian detours and access through this area will be maintained.

## SAFETY

The construction area will be fenced and/or marked as a restricted area. We will take every precaution to ensure public safety. We also need your assistance in keeping a safe distance from the construction sites and the equipment.
